

# Ohio School Report Cards

## School Report Cards

Report Cards are designed to give parents, communities, educators and policymakers information about the performance of districts and schools — to celebrate success and identify areas for improvement. The information provides transparent reporting on student performance, drives local conversations on continuous improvement and identifies schools to receive intensive supports. The goal is to ensure high expectations and equitable outcomes for all Ohio's students.

The state's education community experienced unprecedented impacts during the 2019-2020 school year due to the coronavirus pandemic. Due to the ordered school-building closure, limited data exists compared with prior years. In light of these impacts, the report cards this year will look different — each area will be noted with explanations. Additional information can be found on the Department's **Report Card Resources webpage**. (<http://education.ohio.gov/Topics/Data/Report-Card-Resources>)

Report cards are only one part of the story. To get a more complete picture, we encourage you to visit schools, talk to educators, parents and students, and review the school's or district's webpage. A lot of great things are happening every day in Ohio's schools!
